Welcome Message From CSI-NIC 2026

WELCOME & GREETINGS INDUSTRY PARTNERS

We are delighted to have you as one of our esteemed industry partners for this significant gathering of experts in Interventional Cardiology. Your participation is invaluable and greatly contributes to the success and value of this conference event. CSI -NIC continues to lead advancements in Interventional Cardiology and Cardiovascular Medicine which is constantly evolving to improve patient outcomes and quality of life.

As we come together to exchange knowledge, share experiences, and explore the latest developments, we are excited to delve into the current cutting edge trends shaping this field of Interventional Cardiology.

Innovations in Percutaneous Coronary Intervention (PCI):

From drug-eluting stents to bioresorbable scaffolds, advancements in PCI techniques for calcium & thrombus continually enhance patient care, focusing on improving efficacy, safety and outcome. The medical treatment also plays a crucial role in secondary prevention of cardiovascular disease which prevents stent failures.

Structural Heart Interventions: Transcatheter therapies for structural heart disease, particularly aortic valve and mitral valve interventions are growing rapidly which are establishing new frontiers in the unmet needs for many surgically ineligible patients and it's a boon for those patients who had no hope to have successful treatment which the catheter based valve therapies have provided as alternate interventional therapy in structural heart disease.

At CSI-NIC 2026, we aim to explore these trends comprehensively through Live Cases, engaging CDs of complex interventions & Cath-lab nightmares from across India and the world, interactive discussions, hands-on workshops and preventive drug therapies.

We encourage you to actively participate, network with experts and delegates, and use this platform to exchange insights and foster collaborations that drive innovation in Interventional Cardiology and Cardiovascular Medicine. Once again, thank you for your participation. We look forward to your valuable contributions and, ensure and trust that your experience at CSI-NIC 2026 will be enriching and rewarding.
